Practice Urban and Extra Urban Driving incorporating hill starts, slow speed manoeuvring and safe parking. Practice normal, fast and rapid charging

PRESENTATION 5

Summary and Final Confirmation
How to look after and care for your Electric Vehicle
Summary, Knowledge Quiz Evaluation and Q & A
Certification

Training takes place in both the classroom and on the road in the EV. Courses are run at suitable locations in line with customer's needs on the ground and are delivered by ADIs on a one-to-one basis with attendees.

Attendees are introduced to the technology behind EV development and gain an understanding of the vehicles' controls and driving characteristics. They benefit from the opportunity to experience driving an EV in different road environments and to practice parking and hill-start manoeuvres.
