

FM001a – Advanced Driving

**FLEETMASTER
GROUP**

Course description

The course takes place at any suitable location selected by the booking manager.

Colleagues are introduced to Advanced Driving techniques to further develop their skills and knowledge of hazard perception, slow manoeuvring, seasonal driving, vehicle capabilities and heavy urban and residential driving techniques.

Delivery is handled by our nationwide team of expert trainers, who use a blend of theory and on-road practical training to identify areas of concern in driver behaviour, advise on ways to improve and demonstrate a range of advanced driving and defensive driving techniques.

Digital assessment reports are accessible to employers post training and provide the detail of the training and a risk rating to help employers manage their ongoing risk removing the unknown.

This course was specifically written to support our customer's drive to improve road safety and efficiency. Before candidates approach their vehicle, we instil in them the importance of pre-drive vehicle checks and the importance of the company road safety strategy.

Who is the course for?

Vehicle operators who have been identified for Advanced and/or Defensive driving training in line with the company risk strategy.
