COURSE CONTENT

Unit 10 covers the monitoring of operatives erecting lights, signs and guards to alter traffic or pedestrian flow. An understanding of the relevant legislation applicable to transport legislation is included in the course. Delegates will have the skills and knowledge to be able to gain qualification under the NRSWA and carry out their duties safely where the monitoring of signing, lighting and guarding is required.

Delegates will also gain an understanding of current legislation and guidelines with relation to safe working practices on the Highway.
