

Course description

The course takes place at any suitable location selected by the booking manager.

Driving is statistically one of the most dangerous activities that colleagues will undertake during their working day. This in cab training course focuses on identifying each drivers ability to operate safely and efficiently on UK roads and assess how they apply these skills whilst driving.

During the course, our national team of expert trainers identify gaps in each individuals driving skills, knowledge or behaviour and provide tailored corrective coaching to improve driver confidence and reduce the likelihood of future vehicle related incidents.

Digital assessment reports are accessible to employers post training and provide the detail of the training and a risk rating to help employers manager their ongoing risk removing the unknown.

Who is the course for?

Vehicle operators who need to establish any areas of concern and/or need to show competence to drive for the company.
