

FM-002 – Post Incident Training

**FLEETMASTER
GROUP**

Course description

The course takes place at any suitable location selected by the booking manager.

Training supports drivers involved in any vehicle related incident to take the steps they need to return to driving for work and protect their safety and wellbeing whilst driving. Route cause analysis allows for training to be targeted to the individual's needs whilst restoring confidence and building skills and awareness to prevent future incidents.

Delivery is handled by our nationwide team of expert trainers, who use a blend of theory and on-road practical training to identify areas of concern in driver behaviour, advise on ways to improve and demonstrate a range of advanced driving and defensive driving techniques.

Digital assessment reports are accessible to employers post training and provide the detail of the training and a risk rating to help employers manage their ongoing risk removing the unknown.

Who is the course for?

Vehicle operators who have involved in any fault or non-fault incident on the road or on site. We cater part of the course based on the incident, to look at why it happened, and how it could have been prevented.

Want to discuss your need further?

Key facts

**Half Day
Full Day**

1 colleague per session

**Post course e-report emailed
direct to manager**

Any suitable UK location
